SUMMARY

I'm Bishal Aryal, a engineer focused on building practical, user-centered digital systems. I work on creating efficient solutions that improve real-world operations, with a strong interest in scalable backend architecture, clean UI/UX, and smart feature design. My goal is to develop products that are not only functional but also reliable, secure, and easy to use.

WORK EXPERIENCE

Tejbi 2026 jan - present

- Developed a comprehensive travel and adventure booking platform for the Nepal market vehicle owners, and service partners interact. The platform manages a complex ecosystem of roles including Bus Owners, Hotel Owners, Drivers, Agents, and Operational Staff.
- tejbi.com
